

Dear Mr. Ursutiu,

Please take this email as a recommendation letter.

Keysight is excited to support and attend the Technology Transfer Festival in Braşov in 2025. It is also in our interest to help/guide the "Digital Transformation of Manufacturing and Products based on Technology Transfer (DT-TT)" to raise awareness in the field of Industry 4.0.

While we are firmly in the digital age, Industry 4.0 solutions are still viewed critically in the realm of test management.

Various barriers hinder their effective implementation. At this event, we will take the audience on a customer journey and demonstrate how these obstacles can be overcome.

The Festival of Technology Transfer (FTT) will support companies and attendees in successfully navigating digital transformation and remaining resilient in the face of future challenges.

This event provides a valuable platform for specialists and experts in the industry to exchange knowledge,

share expertise, and forge new partnerships and collaborations with institutes and universities.

At Keysight, we are also eager to demonstrate our existing technologies, which align perfectly with the event's focus on this particular technology area.

Thank you to the CVTC for inviting Keysight to participate in your festival.

Attached, you will find our Keysight logo (if you need different color code let me know), which you are welcome to use on the CVTC website for this event.

If you have questions pls let me know.

Best regards  
Oliver Zuranski
